ICT A

English Literature A

English Language B

RE B

French C

Business Studies and Economics B

EMPLOYMENT:

YHA Do it 4 Real

Nationwide

(7/2007 – 9/2007)

Duties: Over the summer I worked as a general counsellor for the Youth Hostel Associations 7 week children's summer camp programme. In any particular week, I was in charge of the well being of 8 children aged between 10 and 17. My tasks included 24 hour care for the duration of their stay, ensuring they were getting ready on time for activities, eating, and behaving themselves. During the day, activities (such as rock climbing and coast steering) were run by trained professionals (with the help of general counsellors), but in the evening, entertainment was organised by me and my colleagues. As part of my training I became a qualified in basic outdoor first aid.

TSL (EU) Ltd

The Tramshed,

Walcot Street,

Bath BA1 5BD

(9/2005 – 1/2007)

Duties: I work for TSL as a contract web developer, making updates to their website, and occasionally the websites of their clients. I have had to reverse engineer and modify flash animations and still images for updating the website to showcase their projects; make their website more optimised for search engines and create a user tracking system, with reports generated from data stored in a MySQL database for the company to analyse their marketing efforts. Other tasks I have had to perform, include create a small flash presentation from provided company images, and associated files to create auto running CD's for distribution to potential clients. In editing their website, I have had to use JavaScript in parts, as well as ASP.NET using C#.

Corizon

119 – 121 Middlesex Street

London E1 7JF

(6/2005 - 9/2005)

Duties: As a member of the software development team, I was tasked with making modifications to their flagship product – a user management system. My primary tasks were the following:

- Modify the application to run using the JBossMQ system.
- Create report templates for inclusion in the application (HTML/Custom Application Scripting).
- Extend the open source JMeter application to include individual thread pausing and restarting for the testing team.
- Modifying the application to use the Apache HTTPClient library.

During this time, I became familiar with Merant CVS, IDEA IntelliJ, JMeter, JBossMQ and Apache HTTPClient.

Aegis Media UK Limited (formerly CARAT)

Parker Tower

43-49 Parker Street

London WC2B 5PS

(7/2002 - 9/2002)

(7/2003 - 9/2003)

Duties: I worked with the IT support team firstly in April 2002 as part of my work experience required by my school when

Eventually I was put in charge of receiving the delivery of new computers and the setting up and deployment of the computers to employees.

PROGRAMMING SKILLS: C# (4 Years), C (2 Years), C++, Java (2 Years), PHP (5 years), JavaScript, (X)HTML (7 years), CSS (2 Years), XML (5 Years), MySQL (5 Years), VB6 (4 Years), VB Script

Examples of my use of the above technologies can be found on my website <http://www.nnamdi.co.uk>, where XHTML, CSS and JavaScript have been used in the design of pages (including the template downloads), and C# for ASP.NET. Other websites I have worked on (such as <http://www.white-asare.co.uk>) are PHP powered.

I have used VB Script in earlier websites before ASP.NET because more widely available on servers for creating dynamic content on websites.

I am currently in the process of furthering my knowledge of the Microsoft .NET Framework by becoming a Microsoft Certified Enterprise Applications Developer. My certification should be complete by the time I am available for work.

APPLICATION SKILLS: Microsoft Visual Studio .NET, IDEA IntelliJ, Dreamweaver, Photoshop, Flash, SVN

INTERESTS: Computer programming, web design, socialising, technology, airsoft

RESPONSIBILITIES: During my lower sixth year I joined the school's Youth SVP and worked with mentally and physically handicapped children (6 to 16 years) once a week. I had the opportunity of going to Lourdes for a week with mentally handicapped adults and I was put in sole charge of two men in their early thirties.

For both the previous year, and this year, I am the chairman of the Airsoft society in the University of Bath Students' Union. In this role I am responsible for the organisation events and the safe transports of members there and back.
